

# Polish American Heritage Month

**Polish American Heritage Month** is a time when we celebrate the history and traditions of immigrants from the country of Poland who have made America their home. During the month of October, you can explore the customs and culture that Polish Americans have brought to our country at the library. It's a time for fun, learning, and celebrating together! Through library events and books, we invite you to discover more about yummy Polish foods, explore Polish folk art, dances and songs, and learn about the heroes and heroines of Polish history.
